## Communique

The Medical and Health Officers Association (the union) has taken note of a sound bite on radio plus to the effect that, in the light of the much contested shift system doctors (general practitioners) will improvise a “go slow” to express their disapprobation.

The Union wishes to inform you that no industrial action has been contemplated yet and as such dissociates itself from the said action.

All members are advised not to venture into any action of the like or otherwise that may have a serious bearing on their career.

  
Yours sincerely,

Dr Rishi Seesaha  
Secretary
